

# JETHVA RAVI J

I am a dedicated and committed Computer Engineering graduate with skills in C, Java, MySQL, React Js and Express Js. I am excited to start my career in software development where I can use my quick learning and problem-solving skills. I thrive in a team environment, enjoy completing solutions on time and am always ready to adapt to new technologies. I am eager to contribute new ideas and add value to my workplace.

## WORK EXPERIENCE

### Pantech.Ai

Full Stack Web Development

May 2024 - Aug 2024

- During my internship, I gained hands-on experience in HTML, CSS, JavaScript, MongoDB, React, Node.js, Express Js, Docker, and Git/GitHub. This allowed me to build and manage full-stack applications while sharpening my technical and collaborative skills.

## EDUCATION

### Faculty of Technology and Engineering (MSU), Baroda

Bachelor of Engineering - 7.94

Sep 2023 - May 2026

### Bhailalbhai and Bhikhabhai Institute of Technology (BBIT), Vallabh Vidyanagar

Diploma Engineering - 9.15

Sep 2020 - Jul 2023

## PROJECTS

### Electronify

Feb 2025 - May 2025

Electronify is a full-featured AI-powered eCommerce platform built using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Key features include:

- Home Page:** Dynamic product listings with search and category filters.
- Product Page:** Detailed product view with image preview, price, rating, and "Add to Cart" functionality.
- Cart & Checkout:** Cart system with item quantity management, checkout form, and order preview.
- Admin Dashboard:** Manage products, orders, and users. Includes secure login and full CRUD operations.

### Canteen-Bill Management System

Feb 2023 - Jun 2024

A web-based canteen billing system built using PHP and MySQL that simplifies daily food order and billing operations for canteen staff and customers.

Key features include:

- Dashboard:** Overview of orders, monthly sales, and billing summary.
  - Order Management:** Easy interface to add items, calculate total bills, and update daily orders.
  - Billing History:** View and print monthly order history, helping both users and staff keep track of expenses.
- The system improves efficiency and customer satisfaction, and it's easy to update and maintain.

### Language-Translator

Aug 2023 - Sep 2023

- This language translator web app is a user-friendly tool built with HTML, CSS, and JavaScript. It provides translations for multiple languages with a simple and intuitive interface.

## SKILLS

- Programming Languages: C, Java, Php, Html/Css, Javascript
- Frameworks: React Js, Node Js, Express Js, Bootstrap
- RDBMS: MYSQL, MONGODB

## LANGUAGE

- English – Gujarati – Hindi
